

# **QAS** generators

The QAS generator range was designed specifically for the needs of the US market. The range has been completely overhauled and incorporates nine models covering power rating from 25 to 625 kVA. All QAS generators include the latest Tier 4 Final engine and have a footprint that is up to 20 per cent smaller than the previous generation. The starting mechanism ensures that stable power is achieved in less than six seconds.

The range is all about the user experience and maintaining the value of your asset. It's packed with features that make operating, transporting and maintenance as easy as possible.

What is more, up to 32 units of the QAS 625 can be linked together in paralleling for specialized applications, providing up to 20MVA of stable and reliable power.

Data may change depending on models.

# Make the Perfect Power

When you need power, maybe a single generator is not always the most efficient solution. Does the application load vary? Do you need prime power for long term projects on a remote site? Do you need a semi-permanent installation that can be upgraded or downgraded?

A Modular Power Plant (or paralleling multiple generators) is the efficient solution if you answered yes to any of the above questions. Simply, this is a configuration of generators working together.

We have developed a unique Power Management System (PMS). The PMS system enables the optimization of fuel consumption and expands the generator's lifetime. PMS manages the quantity of generators running in parallel with load demand, starting and stopping units in line with increases or decreases in load. In this way, the load on each generator remains at a level which optimizes fuel consumption. It also eliminates the need for generators to run with low load levels, which can cause engine damage and shorten the life expectancy of the equipment.

# QAS 250 to QAS 625 Specialized power

The CAM Lock Connection Switch has been designed to ensure a safe way of transferring power. The Multi voltage switch helps to

quarantee less than 6 seconds for stable power

### **EASY ACCESS AND SERVICE**

• Its large doors guarantee an easy service and access to all components

### **REAR CUBICLE ACCESS**

 "Plug and play" connectivity principle that is designed to provide a safe, fast and flexible energy supply with the minimum of operator hassle

# DESIGNED TO BE MOVED AROUND

- The single lifting eye is one of the key features on the QAS 625
- Easy to move around thanks to its triple axle trailer

### **ALL UNDER CONTROL**

- Clear window in door for at a glance viewing of controller and system
- User friendly and easy paralleling thanks to the Qc4003 controller that allows an easy connection, configuration and performance!

Atlas Copco

• Unique TDU touch screen\*

### **MAIN APPLICATIONS**

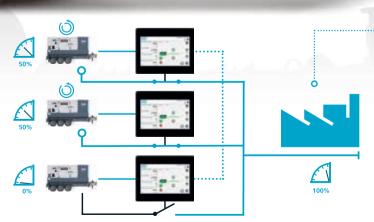

### MULTIVOLTAGE SWITCH

- You can modify the voltage output you need in few seconds
- Voltage of 480V, 208/240V, 240/120V

available on QAS 95-625 only

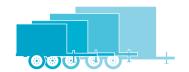

# POWER MANAGEMENT SYSTEM

 Increase the efficiency of a power plant by starting/stop the generators automatically based on load demand, reducing fuel consumption, utilization of machines, noise level and increasing engine lifetime. Up to 32 QAS 625 can be linked together to provide up to 20 MVA of stable power.

\*option

# QAS 25 to QAS 200 General rental

# INTEGRATED DOOR SEALING SYSTEM

 Every QAS has a unique foam and seal layering system inside the doors. This ensures water-tightness and improved sound attenuation.

# ENVIRONMENTAL FRIENDLY

 Spillage free frame is standard accross the range.

# SAFE AND EASY MOVEMENT

 QAS generators pack an impresive amount of power into a compact yet heavy duty, weather proof, sound attenuated enclosure. Available in either a skid mount or trailer mounted configuration, it is adaptable to whatever your job site demands.

## **DIRT AND DUST. NO PROBLEM!**

 All QAS generators have dual stage filtration with a safety cartridge and dual stage air cleaning. This centrifugal dust separation system and heavy duty filtration system prolongs the life of your generator.

THAN OTHER UNITS

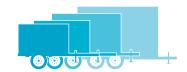

# ANTI-RUST CANOPY

 The QAS canopy has a unique 'no weld' corner design. Eliminating a traditional 'rusting' spot. Every units undergoes a saltwash test ensuring the canopy stays tough, even in the harshest conditions.

# INDUSTRY- LEADING COMPACTINESS

 With our integrated trailers, its not just about ease of movement – we also reduce the footprint by up to 20%.

# QAS 25 to QAS 200 New **General rental**

### **PUTTING YOU IN CONTROL**

• We believe a controller should be intuitive and simple, but still put you in complete control. Our controller features the latest technology featuring advanced warning and alert parameters.

• When you need power, maybe a single generator is not always the most efficient solution. We had developed a unique Power Management System (PMS). The PMS system enables the optimisation of fuel consumption and expands the generator's lifetime. PMS manages the quantity of generators running in parallel with load demand, starting and stopping units in line with increases or decreases in load.

 Our standardized modular cubicle aids simple service and ensures simplicity when it comes to wiring and even paralleling. What's more, all QAS generators feature an external emergency stop button as standard-no need to open any doors to access!

## **ERGONOMIC SOCKET** CONNECTIONS |----

• This may sound like a basic feature but are you tired of having to bend and it's easy access sockets.

### EASY-FILL SYSTEM

• The QAS generator has an external simple-fill mechanism for both fuel and DEF. This one click mechanism makes refueling a breeze.

# **Product portfolio**

### **GENERATORS**

**MOBILE** 25-1,200\* kVA

\*Multiple configurations available to produce power for any size application

### **DEWATERING PUMPS**

ELECTRIC SUBMERSIBLE up to 6,100 US gpm

SURFACE PUMPS

up to 8,500 US gpm

Diesel and electric options available

### **LIGHT TOWERS**

#### **METAL HALIDE**

#### DIESEL LED ELECTRIC LED

### **AIR COMPRESSORS AND HANDHELD TOOLS**

#### AIR COMPRESSORS

110-1,800 cfm 58-508 psi

#### HANDHELD TOOLS

Pneumatic Hydraulic Petrol engine driven

### **ONLINE SOLUTIONS**

# SHOP ONLINE PARTS ONLINE

Find and order the spare parts for power equipment. We handle your orders 24 hours a day.

#### **POWER CONNECT**

Scan the QR code on your machine, and go to the QR Connect Portal to find all the information about your machine.

# LIGHT THE POWER YOUR SIZING TOOL

A useful calculator to help you choose the best solution for your power and light needs

#### **FLEETLINK**

Intelligent telematics system that helps optimize fleet usage, reduce maintenance costs, ultimately saving time and cost.
